**ISSUE OF REGISTRATION OF LANDS**

My Dear Sam

Annexed please find a copy of my letter sent to his Excellency the president on the above subject. This land issue is the burning question of the day. The people of the north are very much concerned about it. Those of the North living abroad are very much worried and take calls after calls. The letter I wrote to the president is not going to help and a more positive action is the immediate need

I am seriously considering to organize a boycott campaign against submission of details of lands, but holding it back fearing that I may be upsetting the program of the TNA which may be having its own proposals. You might have even taken it up in your discussions with the Government and hence my reluctance to go ahead, without knowing your position. If you have any plans to boycott, or otherwise the support of the TULF and also that of the PLOTE will be readily available. If you have no plans could you please extend the support of the TNA for my proposal for a boycott campaign. The fear I have is the Federal Party not participating at the TULF annual convention held on Sunday the 25<sup>th</sup> October 2011.

During the local Government Elections the TULF and the PLOTE gave full backing to the TNA candidates, some of whom were from the TULF and the PLOTE. But unfortunately up to now you had neither acknowledge nor appreciated our support which came spontaneously from the supporters of the TULF and the PLOTE.

There are many other matters regarding which I should have taken action on my own. But without specifically knowing what and what things are being discussed by you with the Government, no one is in a position to do anything on any matter, that concerns the Tamil speaking people. In all seriousness I am asking you whether the subjects that are listed for discussion with the Government should be concealed even from your own Members of Parliament. Leaving me out is not that I am complaining of but, I want to know what and what matters can be taken up by people like me with the government without infiltrating into your talks with the government.

Thanking You.

Yours Sincerely,

V. Anandasangaree  
Secretary General  
Tamil United Liberation front.
