**NESOHR Report on the Tamil Political Prisoners**

*Published on 12 March 2016*

In early 2008 the then member of parliament Kiddinan Sivanesan handed to NESOHR a data CD of PDF files of seventy hand written statements of Tamil political prisoners who were held in the New Magazine prison at that time. A few weeks later Sivanesan was assassinated in a claymore attack.

After the end of the war in 2009, NESOHR made contact with a couple of these prisoners in an effort to help them. NESOHR learnt at that time that most of them could get released by paying/bribing 5K-10K US\$. NESOHR also became aware of particular cases of these political prisoners who had indeed obtained their release in this manner. It became clear to NESOHR then that for a bribe of one million US\$ most of the known Tamil political prisoners could obtain their release. Such was the justice system then. Most Eelam Tamils know this fact but it is not clear how many Sinhalese people are aware that it was possible to obtain the release of all the Tamil political prisoners with bribes amounting to one million US\$.

The present “celebrated” new government, however, continues to struggle to release these same Tamil political prisoners despite promises made. Some have suggested that the current government is mindful of enraging the Sinhala people who would think that releasing these Tamil political prisoners is tantamount forgiving the LTTE. Who are these political prisoners and what are their experiences.

The snapshot presented below was drawn from the seventy hand written statements mentioned above that is in possession of NESOHR. Can any human being think of any purpose in holding these Tamils in prison?
